Customer Proprietary Network Information Certification

I, Chad Pifer, Vice President, Legal & Regulatory of FiberLight, LLC have personal knowledge of the company's use of customer proprietary network information ("CPNI"). I certify that FiberLight, LLC does not use CPNI for marketing purposes other than as permitted in the Federal Communications Commission's rules set forth in section 64.2001 et seq. I relied on Attachment A in making this certification.

Customer Proprietary Network Information Certification
Attachment A

FiberLight, LLC ("FiberLight") is a new company that began offering services to customers in November, 2005. FiberLight exclusively offers private line, internet access, data transmission services and dark fiber. These services are provided primarily to local and interexchange carriers, wireless, data applications and internet service providers and businesses. FiberLight does not provide telephone exchange service or telephone toll service. Additionally, FiberLight's services do not generate or maintain information about the "type, destination, and amount of use of a telecommunications service subscribed to by a customer." Nonetheless, to date, FiberLight has not used CPNI for any marketing purpose. FiberLight does not share CPNI with affiliates or third parties. FiberLight is in the process of training its personnel in the appropriate use of CPNI.
